For Your Information

January 2024 Edition

Garbage Containers

Please keep your garbage containers back from the road during the winter. Set your garbage cans out on Wednesday evening and put them back near your house/garage as soon as possible on Thursday, no later than Thursday evening. If the containers are too close to the road or blow into the road, the containers may get hit. Please do not set white garbage bags onto the snow as the garbage workers can not see them in the dark and they may get missed. Use a garbage can to hold the bags or use dark colored bags. Thank you for your cooperation!

2024 Pet Licenses Available

If you own a dog or a cat, you are REQUIRED to license them with the city. You must provide proof of current rabies vaccination (not to expire before June 30) along with \$2 for each license. Pet licenses are valid from January 1st to December 31st each year and are required for ALL cats & dogs. **2024 licenses are now available at City Hall.** If you can not come into City Hall, please mail or drop off the **rabies vaccination certificate (not an invoice for veterinary services) for each animal along with \$2 per license.** The license will be issued and mailed back to you along with your original vaccination certificates. If you do not have a copy of the vaccination certificate, contact your veterinarian for a copy. **No licenses will be issued if the vaccination certificate does not accompany the payment.** **DO NOT add the cost of the licenses to your water bill payment.** Please call City Hall for more details.
